Profile

MSc Geographic Data Science student at the University of Liverpool with a BSc (Hons) in Geography and practical experience applying GIS, Python, R and SQL to environmental and socio-economic datasets. Experienced in developing interactive web GIS applications, spatial models and statistical analyses to investigate flood risk, social vulnerability, retail suitability and environmental change. Confident communicating technical findings through professional reports, interactive mapping and clear data visualisation.

Professional Highlights

- Designed interactive web GIS applications using Python, GeoPandas and Folium.
- Applied survey analysis, weighting, recoding and statistical interpretation using R.
- Produced consultancy style reports and professional data visualisations.
- Worked with environmental APIs, census data and large spatial datasets.

Education

- University of Liverpool | MSc Geographic Data Science | 2025 – Present
- University of Liverpool | BSc (Hons) Geography | 2021 – 2024
- Dissertation: Stratospheric Volcanic Aerosols and Climate Change: A Thirty Year Analysis.

Technical Projects

- **Flood Risk & Social Vulnerability:** Developed an interactive web GIS integrating Environment Agency APIs, deprivation data, GeoPandas and Folium to explore environmental vulnerability across Leeds.
- **Retail Location Suitability:** Designed a multi criteria GIS model in QGIS combining demographic, deprivation, competition and population datasets.
- **Social Survey Analysis:** Analysed large survey datasets in R using weighting, recoding, cross tabulation and statistical interpretation to produce publication quality outputs.

Technical Expertise

- Programming: Python, R, SQL
- GIS & Geospatial: QGIS, ArcGIS Pro, GeoPandas, Folium, Interactive Web Mapping
- Analysis: Spatial Statistics, Survey Analysis, Regression, Machine Learning, API Integration, Raster & Vector Analysis, Multi Criteria Decision Analysis
- Communication: Technical Reporting, Data Visualisation, Consultancy Style Reporting

Professional Experience

- Tesco Stores Ltd | Retail Assistant | 2021 – Present
- Balanced postgraduate study with employment while developing communication, teamwork, organisation and leadership skills in a fast paced environment.

Certifications

CSRD Fundamentals • ISO 14001:2015 • Python for Data Science • SQL for Data Analysis • Learning R
